SAVE
\$1540

1,000-LBS. CAPACITY 2-STAGE TRANSMISSION JACK

- Air is independent in first stage for speed, and hydraulic in second stage for incremental adjustment
- Patent-pending locking pawl will automatically engage when air stage is at full height
- Minimum height of 34-1/2" allows the easy movement of the transmission from the jack to the work table
- Foot-activated release pedal provides slow controlled lowering of load
- Saddle features four ratcheting arms for quick and easy size adjustment to the transmission pan
- Nylon strap allows load to be securely tied down to the saddle
- Swivel casters for easy maneuvering with and without load, two locking casters to prevent jack from moving
- Saddle Tilt: 37° fore, 26° aft, and ±12° side to side
- Overload valve ensures jack is not used beyond its rated capacity
- Wide base legs provide stability
